

Cuts cost Canadians

PASS IT ON!

The Harper government will cut funding to public services by \$4 billion, and has asked every department to slash their budgets by 5% and 10%.

But the job cuts have already started

2,100 in National Defense

700 at Environment Canada

687 in Public Works

275 in Fisheries and Oceans

150 from one public service pension centre in Shediac, NB

60 at Canadian Heritage...

As federal government workers, your services keep Canadians safe and healthy, protect the environment and sustain economies in communities across the country.

Let's show Stephen Harper and Tony Clement cuts will cost them support.

- **Tell your MP that they have a responsibility to ensure that federal public services are maintained and improved for all Canadians**
- **Tell Tony Clement why your job matters:**
email: Clement.T@parl.gc.ca;
tweet: [@TonyClementCPC](https://twitter.com/TonyClementCPC)
- **Talk to small businesses owners in your 'hood about how the cuts could affect them and ask for their support**
- **Spread the news with your colleagues, neighbors and friends**
- **Keep in touch with your union: tell us how the cuts are affecting you and your colleagues, and sign up for updates:**
